## DS Series ICEWAGON CHILLERS

## 1 to 12 Ton Capacity Portable Chillers for Heavy-Duty Industrial Cooling

## Engineered for Long Life \& Superior Performance

## Air \& Water-Condensing Models

## Energy-Efficient Design

Completely Non-Corrodible Coolant Circuits

## All Models ETL Listed <br> Non-CFC Refrigerants

Value is what makes the DS Series of portable chillers the industry standard. From the pioneer in process chillers, DS models come with all the features that users want. No gimmicks to push up the price. No shortcuts that lessen the quality.

GCI's versatile family of DS Series Icewagon Chillers is engineered for general purpose applications, where performance, cost and operating flexibility are key requirements. Both air and water condensing models are available, and the series comes with compressors sized from 1 to 12 hp to meet a broad range of industrial cooling needs. Ruggedly built, yet compact in size, DS's incorporate many of the features found on larger, more expensive chillers.

## - Steel Frame \& Covers

Structural steel frame helps protect chiller from Impact damage. Removable steel panels allow access for routine inspection and maintenance. Compact design. Casters standard for easy moves.

## - Long-Llfe Hermetic Compressor

Welded hermetic compressor designed for heavy-duty refrigeration service.

## - Hot Gas Bypass

Eliminates the constant on-off compressor plugging that results in excessive component wear and unnecessary electric power usage. Delivers more precise temperature control.

- Exclusive GCI Coilmatic ${ }^{\text {TM }}$ Evaporator

A high-efficiency evaporator with built-in crud protection and reduced freeze risk. Stainless and copper through out. None of those shortcut coil-in-tank designs.

## - Stainless Steel Pump

Complete corrosion resistance. Centrifugal circulating pump has high-efficiency impeller, center line connections, and mechanical seal.

- Brazed Copper Piping Throughout Long lasting. No plastic to get brittle. No ferrous metals to rust. Brass valves. Fully insulated.

## - Microprocessor Control

Easy-to-use digital thermostat, plus high and low-pressure refrigerant gauges, pump pressure gauge, tank sight tube, and internal refrigerant sight glass.

## - Safety Package

Includes high/low refrigerant pressure safety switch, pressure relief device, motor overload protection, line and control circuit fuses, pump switch interlock.

## - Fully Rated Capacities

Cooling capacities rated at $50^{\circ} \mathrm{F}\left(10^{\circ} \mathrm{C}\right)$. Add $25 \%$ to compare with many competitive models. Standard output temperatures from $30^{\circ} \mathrm{F}$ to $70^{\circ} \mathrm{F}$. Capacities vary when glycol mixes are used.

## - ChillersDircet ${ }^{\text {TM }}$

Another GCl benefit to help keep your investment to a minimum. Deal directly with the factory. Talk to experts who can help make sure you get just the right chiller for your needs. Not too much. Not too little.

## - Ready-to-Install

DE Series Icewagon chillers are shipped ready to hook up and run. Installation Is simple, usually involving only electrical and liquid connections. Free telephone support is there if you need help.

- Options

Outdoor and split systems. Fully stainless models for food applications. DI water, heaters, special paint, lower temperature models, oversize tanks, special pumps, special currents, special weather proofing. Call us with your requirement.

GCI is continually upgrading its product. As such, oil specifications are subejct to change without notice. For complete specification information, please give us a call.

## Air-Condensing

| MODEL | Rated BTU <br> Capacity @50"F | Rated BTU <br> Capacity @20"C | $\mathrm{LxW} \mathrm{\times H}$ (in) | Approximate <br> Shipping Wt. (lbs) |
| :--- | :---: | :---: | :---: | :---: |
| DS1AC | 10,800 | 13,500 | $36 \times 18 \times 39$ | 350 |
| DS1-1 /2AC | 18,000 | 22,500 | $36 \times 20 \times 39$ | 420 |
| DS2AC | 21,000 | 30,000 | $42 \times 26 \times 39$ | 500 |
| DS3AC | 36,000 | 45,000 | $42 \times 26 \times 39$ | 540 |
| DS4AC | 49,200 | 61,500 | $62 \times 30 \times 52$ | 700 |
