RACX Series

Class 1
Group C & D
Division 2

MARINE DUTY EXPLOSION PROOF ROOFTOP AIR CONDITIONER

RACX Marine Duty Rooftop Explosion Proof Air Conditioners are the units of choice for cooling small areas such as mud logging buildings, analyzers shelters and crane cabs. These compact air conditioners are certified NEC Class 1, Groups C and D, Division 2. The high impact resistant plastic housing, plastic drain, coated condenser coil and special hardware are combined to provide maximum corrosion protection.

- ➔ **All exposed sheet metal parts** are powder coated for corrosion protection.
- ➔ **Flexible refrigeration hoses** provide better shock protection than pipe with soldered joints that can break under stress.
- ➔ **Structural compressor support** for maximum impact resistance.

FEATURES:

- Designed for offshore use on drilling platforms, mud logging buildings, analyzers shelters, crane cabs and in portable buildings
- Impact and Vibration Resistant
- Both Unit and Controls Certified for NEC Class 1, Groups C and D, Division 2
- Excellent Corrosion Protection
- Self-Contained, Pretested, Easy to Install

Rooftop models fit
standard size openings

Remote control
installs easily in room

RACX 1353-ICD2

Div. 2 Explosion Proof Indoors & Outside
(Includes remote control as shown above)
115 Volts, 60 Hertz
Cooling Capacity 13,500 BTUH

RACX 1353-ICD2/EXT

Div. 2 Explosion Proof Outside Section Only
115 Volts, 60 Hertz
Cooling Capacity 13,500 BTUH
Available with optional electric heat (5,600 BTUH)
